

### Exhibit 3: Mill Buildings in Pawtucket

The Parkin Yarn Mill (*above*) is totally vacant. Other former mill space to the right of the building is occupied by offices. Note the narrowness of the street. The Parkin mill loading dock (*below left*) harkens back to the era before tractor trailers. The Manville-Jenckes Mill Complex (*below right*) is a target for redevelopment. Vacant upper-floor space is obvious from broken windows, derelict air conditioner (*below left*). Photos by Niverio Carvalho
